

Free shade trees! Apply now for spring planting!

Beautify your yard and community with a gorgeous hard-working tree.

Trees are so important for healthy communities that CKAR CDC will plant one in your yard. **For free!**

Calling all residents in and around Riverdale, Riverdale Park, Eastpines, Templeton Knolls, Beacon Heights, Bladensburg and the Port Towns, Cheverly, Woodlawn, Lanham, and Langley Park.

Homeowners in area neighborhoods are eligible for a free professionally planted native tree (or two). We especially want sites for larger shade trees like oaks, maples, hornbeam, yellowwood and river birch. Others including redbuds, sweetbay magnolia, and dogwoods may be available.

This tree canopy project is a service of the Central Kenilworth Avenue Revitalization CDC (CKAR) in cooperation with our county Department of Environment, the Chesapeake Bay Trust, and participating communities and organizations. Homeowners must agree to water and mulch their tree for one year.

Tree request forms are online at www.CKARCDC.org/trees, or from info@ckarcdc.org, and at participating town offices; or email gogreenplanttrees@gmail.com or phone 240-608-2527.
